

W300

The ARGUS W300 is a stand-alone HD Zoom camera featuring integrated 4G modem and GPS. The camera is capable of AES Encrypted transmission using cellular 4G/LTE, 3G & 2G, Wi-Fi and LAN. The video channel can be configured to achieve peak performance using the dual stream function without compromising recording quality.

Dual SIM Redundancy offers network failover and the MIMO cellular antennae ensure the best signal possible. With an integrated Wi-Fi, GPS and optional power management system, the unit can be configured, monitored & managed remotely from anywhere in the world on any mobile network.

Wi-Fi, Cellular & WAN connection

Dual SIM card redundancy

GPS Location & history with interactive mapping

1 x LAN / WAN Port, Power management

7-30v DC, 120mAh Typical @ 12v

Product code: C-W300 - NSN: 5836-99-334-8521
